Multiply Handicapped Children: A Bibliography

Citations for this selective bibliography were taken from the ERIC monthly abstract journal, Research in Education (RIE), Current Index to Journals in Education (CIJE), and Exceptional Child Education Abstracts, published by the Council for Exceptional Children. Also listed are certain other periodicals and books which contain information about multiply handicapped children.

When citations have ED numbers, documents are available through the ERIC Document Reproduction Service (EDRS) in either microfiche (MF) or hard copy (HC), except for a few documents which may be available only in microfiche. (See ordering directions in the back of this publication.) Other availability is given when appropriate.

For additional information on exceptional children, contact the ERIC Clearinghouse on Exceptional Children, 1411 S. Jefferson Davis Highway, Suite 900, Arlington, Virginia 22202.

Postscript

The Educational Resources Information Center/Early Childhood Education Clearinghouse (ERIC/ECE) is one of a system of 18 clearinghouses sponsored by the United States Office of Education to provide information about current research and developments in the field of education. The clearinghouses, each focusing on a specific area of education (such as early childhood, reading, linguistics, and exceptional children), are located at universities and institutions throughout the United States.

The clearinghouses search systematically to acquire current, significant documents relevant to education. These research studies, speeches, conference proceedings, curriculum guides, and other publications are abstracted, indexed and published in Research in Education (RIE), a monthly journal. RIE is available at libraries, or may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Another ERIC publication is Current Index to Journals in Education (CIJE), a monthly guide to periodical literature which cites articles in more than 560 journals and magazines in the field of education. Articles are indexed by subject, author, and journal contents. CIJE is available at libraries, or by subscription from CCM Information Corporation, 909 Third Avenue, New York, New York 10022.

The Early Childhood Education Clearinghouse (ERIC/ECE) distributes a free, current awareness newsletter which cites RIE and CIJE articles of special interest, and reports new books, articles, and conferences. The ERIC/ECE Newsletter also describes practical projects currently in progress, as reported by teachers and administrators. For more information, or to receive the Newsletter write: ERIC/ECE Clearinghouse, 805 W. Pennsylvania Avenue, Urbana, Illinois 61801.
